EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Rajiv Yadav on April 22, 2004.

Claims 27-28 were cancelled since these new composition claims were not properly searched and considered during the prosecution of this application.

2. The following is an examiner's statement of reasons for allowance: Application serial no. 09/693,186 is being allowed since none of the prior art of record teaches or fairly suggests a method for separating phospholipids by thin layer chromatography using as an elution solvent a mixture containing chloroform, methanol, acetic acid and an aqueous solution of potassium chloride.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
